During my two-year education, under the great support of teachers and friends, I have led a bitter but fruitful course. Upon the very conclusion of this thesis, there are a myriad of thoughts on my mind, and I can hardly be calm in a very long while.

Professor Qiu Chao, my supervisor, has inspired me with his serious scientific attitude, meticulous academic spirit and work style of seeking common ground while reserving differences since I became a graduate student. He has not only provided me with careful academic guidance but also offered me care and support in my thinking and life. Here, I would like to extend my sincere thanks to Professor Qiu Chao for his dedication.

I would also like to thank my classmates and roommates for the profound friendship I have with them during my study of the Master's Degree, as they gave me the greatest support and help in my most difficult and needy times. I would like to take this opportunity to express my most sincere thanks to them.

Meanwhile, I also want to thank my parents. Thank you for your upbringing, and I know I can hardly return the favor you have given me. And it is always my greatest wish to see your happiness and good health forever!

As I am about to complete my thesis, I feel really excited. After all, from the very start of the project to the final completion, countless respectable friends have offered me help. So here, please accept my sincere thanks!
