

## Abstract

This is co-operative education aims to study “ Procedure Spacial Event of student market at Central paza pinkao”

The objectives of the study were as follows

1. To investigate “Special event about Student Market
2. To bring my knowledge to operate co-operative subject
3. To learn about the problem and solve problem regarding my job.

Before we start work, we have to start with a meeting to know about the details and plan of the job for that day . I also need to check how much we spend to organize the event and check how much we made after the event. So we have to make perfect arrangement to make the event is successful .

From what I learn during these internship, I have learn about how to work with people and also learn how to make special event success. This makes me know how to handle my problem at work and my responsible. I also learn so solve problems regarding my job and develop my work plan to use in the future to ease my work

The knowledge I acquired from the internship makes me know good point and the effect about my job as organizer. I also prepare all the detailed of the job to make sure is perfect
