Abstract

QUiNT Corporation Company is a consult company for many businesses such as real estate, MLM and E-Money etc. The head office is located in Singapore (QUiNT Pte.) and there are other branch in many countries such as Thai and Hong Kong. QUiNT Thailand work as an outsourcing in management for QUiNT Group for example People management, Network System, System development, Accounting, and etc.

Coop Students from IT Department, Siam University were assigned to work in Information Department for developing Employee Leave Management Websites. The process started with requirement collecting by interviewing and document, analyzing and designing. Sublime Text3 was used for developing and phpMyAdmin Database Manager Version 4.6.6 was used in database management. Moreover, Coop Student tested and collected user satisfaction. As the result the system can work efficiency by sending request thru E-mail and employee can recheck by themselves.

Key words : E-office/ leave / Website
