

CHAPTER –4

Research findings and analysis

4.1. Analysis of data

In this report total 30 samples are used where 20 samples were males and rest of 10 samples was females. In terms of age, 8 samples were under 25ages, 10 samples were from 25-30ages, and 12 samples were above 30 ages. In terms of education, 10 samples were under graduate, 14 samples were graduates and 6 samples were post graduate. In terms of profession, 6 samples were business holder, 19 samples were service holder and 5 samples were students. According to the questionnaire, the analysis has been done. Which is given below with comments?

1. Among 30 respondents 6 samples/males agreed that GOV playing sufficient role to rise our capital market whereas 14 males were disagreed with this. In terms of female, 4 agreed that GOV playing sufficient role to rise our capital market, whereas 6 samples were. Disagreed with it. In terms of age, below the age of 25years, out of 8 sample 4 agreed with it and 4 sample were disagreed. Likewise, those who are age of 25, out of 10 respondents, 4 samples were agreed and rest of 6 samples was disagreed. Over age 30, out of 12 people 2 were agreed with it and rest people of 10 were disagreed with it. In terms of education. Below the graduation, out of 10 people 3 were agreed and 7 were disagreed with it. Graduation out of 14 people, 4 was agreed and 10 were disagreed. Post graduation out of 6 people 3 was agreed and 3 were disagreed with this. In terms of profession, out of 6 people of businessperson 1 was agreed and 5 were disagreed. Out of 19 people of service holder 6 people were agreed with it and rests of 13 were disagreed and lastly out of 5 students, 3 were agreed with this issue and 2 were disagreed with this statement.

2. Among 30 respondents 1 sample/ males agreed that SEC fulfills its all objectives of our capital market whereas 19 samples/ males were disagreed with this. In terms of female, 4 sample/female agreed that SEC fulfills its all objectives of our capital market, whereas 6 sample s were disagreed with it. In terms of age, below the age of 25, out of 8 people 1 agreed with it and 7 was disagreed. Likewise, those who are age of 25, out of 10 people, 3 were agreed and rest of 7 was disagreed. Over age 30, out of 12 people 1 were agreed with it

and rest of 11 were disagreed with it. In terms of education, below the graduation, out of 10 people 3 were agreed and 7 were disagreed with it. Graduation out of 14 people, 1 was agreed and 13 were disagreed. Post graduation out of 6 people 1 was agreed and 5 were disagreed with this. In terms of profession, out of 6 people of businessperson 3 were agreed and 3 were disagreed. Out of 19 people of service holder 2 people were agreed with it and rest of 17 was disagreed and lastly out of 5 students, 1 was agreed with this issue and 4 were disagreed with this statement.

3. Among 30 respondents 11males/samples were agreed that absence of tax on capital gain should be exist in capital market whereas 9 males were disagreed with this. In terms of female, 7 agreed that absence of tax on capital gain should be existing in capital market, whereas 3 were disagreed with it. In terms of age, below the age of 25, out of 8 people 3 agreed with it and 5 were disagreed. Likewise, those who are age of 25, out of 10 people, 6 were agreed and rest of 4 was disagreed. Over age 30, out of 12 people 9 were agreed with it and rest of 3 was disagreed with it. In terms of education. Below the graduation, out of 10 people 7 were agreed and 3 were disagreed with it. Graduation out of 14 people, 7 was agreed and 7 were disagreed. Post graduation out of 6 people 4 was agreed and 2 were disagreed with this. In terms of profession, out of 6 people of businessperson 4 were agreed and 2 were disagreed. Out of 19 people of service holder 9 people were agreed with it and rest of 10 was disagreed and lastly out of 5 students, 4 were agreed with this issue and 1 was disagreed with this statement.

4. Among 30 respondents 11 males/samples agreed that GOV (Government) should encourages the private and public-sector corporation to issue more bonds for our capital market, whereas 9 males were disagreed with this. In terms of female, 4 agreed that GOV (Government) should encourage the private and public-sector Corporation to issue more bonds for our capital market Whereas 6 were disagreed with it. In terms of age, below the age of 25, out of 8 people 6 agreed with it and 2 were disagreed. Likewise, those who are age of 25, out of 10 people, 8 were agreed and rest of 2 was disagreed. Over age 30, out of 12 people 4 were agreed with it and rests of 8 were disagreed with it. In terms of education. Below the graduation, out of 10 people 4 were agreed and 6 were disagreed with it. Graduation out of 14 people, 9 was agreed and 5 were disagreed. Post graduation out of 6 people 2 was agreed and 4 were disagreed with this. In terms of profession, out of 6 people of businessperson 3 were agreed and 3 were disagreed. Out of 19 people of service holder 9 people were agreed with it and rests of 10 were disagreed and lastly out of 5 students, 3 were agreed with this issue and 2 were disagreed with this statement.

5. Among 30 respondents 12 males/samples were agreed that GOV (Government) should encourages black money holders to invest in the CM by paid tax, whereas 8 males were disagreed with this. In terms of female, 6 agreed that GOV (Government) should encourage black money holders to invest in the CM by paid tax. Whereas 4 were disagreed with it. In

terms of age, below the age of 25, out of 8 people 6 agreed with it and 2 were disagreed. Likewise, those who are age of 25, out of 10 people, 8 were agreed and rest of 2 was disagreed. Over age 30, out of 12 people 4 were agreed with it and rests of 8 were disagreed with it. In terms of education. Below the graduation, out of 10 people 6 were agreed and 4 were disagreed with it. Graduation out of 14 people, 10 was agreed and 4 were disagreed. Post graduation out of 6 people 2 was agreed and 4 were disagreed with this. In terms of profession, out of 6 people of businessperson 3 were agreed and 3 were disagreed. Out of 19 people of service holder 12 people were agreed with it and rest of 7 were disagreed and lastly out of 5 students, 3 were agreed with this issue and 2 were disagreed with this statement.

6. Among 30 respondents 11 samples/ males were agreed that liquidity problem is the major drawback of our capital market whereas 9 males were disagreed with this. In terms of female, 8 agreed that liquidity problem is the major drawback of our capital market. Whereas 2 were disagreed with it. In terms of age, below the age of 25, out of 8 samples, 3 were agreed with it and 5 were disagreed. Likewise, those who are age of 25, out of 10 people, 7 were agreed and rest of 3 were disagreed. Over age 30, out of 12 people 9 were agreed with it and rest of 3 was disagreed with it. In terms of education. Below the graduation, out of 10 people 8 were agreed and 2 were disagreed with it. Graduation out of 14 people, 7 was agreed and 7 were disagreed. Post-graduation out of 6 people 4 was agreed and 2 were disagreed with this. In terms of profession, out of 6 people of businessperson 3 were agreed and 3 were disagreed. Out of 19 people of service holder 12 people were agreed with it and rests of 7 were disagreed and lastly out of 5 students, 4 were agreed with this issue and 1 was disagreed with this statement.

7. Among 30 respondents 10 males/samples were agreed that we should adopt the international auditing standard, (IAS) for more transparency in our capital market whereas 10 males were disagreed with this. In terms of female, 4 agreed that we should adopt the international auditing standard, (IAS) for more transparency in our capital market, whereas 6 were disagreed with it. In terms of age, below the age of 25, out of 8 people 5 agreed with it and 3 were disagreed. Likewise, those who are age of 25, out of 10 people, 4 were agreed and rest of 6 was disagreed. Over age 30, out of 12 people 6 were agreed with it and rests of 6 were disagreed with it. In terms of education. below the graduation, out of 10 people 3 were agreed and 7 were disagreed with it. Graduation out of 14 people, 8 was agreed and 6 were disagreed. Post graduation out of 6 people 3 was agreed and 3 were disagreed with this. In terms of profession, out of 6 people of businessperson 4 were agreed and 2 were disagreed. Out of 19 people of service holder 8 people were agreed with it and rests of 11 were disagreed and lastly out of 5 students, 2 were agreed with this issue and 3 were disagreed with this statement.

8. Among 30 respondents 18 males/samples were agreed that lack of knowledge about capital market accountable for financial crisis of our capital market, whereas 2 males were disagreed with this. In terms of female, 5 were agreed that lack of knowledge about capital market accountable of our capital market for financial crisis of our capital market whereas 5 were disagreed with it. In terms of age, below the age of 25, out of 8 people 6 agreed with it and 2 were disagreed. Likewise, those who are age of 25, out of 9 people, 8 were agreed and rest of 1 was disagreed. Over age 30, out of 12 people 9 were agreed with it and rests of 3 were disagreed with it. In terms of education. Below the graduation, out of 10 people 6 were agreed and 4 were disagreed with it. Graduation out of 14 people, 12 were agreed and 2 were disagreed. Post graduation out of 6 people 5 was agreed and 1 was disagreed with this. In terms of profession, out of 6 people of businessperson 4 were agreed and 2 were disagreed. Out of 19 people of service holder 15 people were agreed with it and rests of 4 were disagreed and lastly out of 5 students, 4 were agreed with this issue and 1 was disagreed with this statement.

9. Among 30 respondents 11 males/samples were agreed that syndication is responsible for financial crisis of our capital market whereas 9 males were disagreed with this. In terms of female 4 samples were agreed that syndication is responsible for financial crisis of our capital market whereas 2 were disagreed with it. In terms of age, below the age of 25, out of 8 people 6 agreed with it and 2 were disagreed. Likewise, those who are age of 25, out of 10 people, 7 were agreed and rest of 3 was disagreed. Over age 30, out of 12 people 6 were agreed with it and rest of 6 was disagreed with it. In terms of education. Below the graduation, out of 10 people 6 were agreed and 4 were disagreed with it. Graduation out of 14 people, 9 was agreed and 5 were disagreed. Post graduation out of 6 people 4 was agreed and 2 were disagreed with this. In terms of profession, out of 6 people of businessperson 3 were agreed and 3 were disagreed. Out of 19 people of service holder 12 people were agreed with it and rests of 7 were disagreed and lastly out of 5 students, 4 were agreed with this issue and 1 was disagreed.

10. Among 30 respondents 7 males/samples were agreed that global financial crisis is the reason of our capital market crisis where 13 males were disagreed with this. In terms of female 2 agreed that global financial crisis is the main reason of our capital market crisis where 8 were disagreed with it. In terms of age, below the age of 25, out of 8 people 4 agreed with it and 4 were disagreed. Likewise, those who are age of 25, out of 9 people, 2 were agreed and rest of 7 was disagreed. Over age 30, out of 12 people 3 were agreed with it and rests of 9 were disagreed with it. In terms of education. Below the graduation, out of 10 people 3 were agreed and 7 were disagreed with it. Graduation out of 14 people, 6 was agreed and 8 were disagreed. Post graduation out of 6 people 6 was disagreed with this. In terms of profession, out of 5 people of businessperson, 1 was agreed and 4 were disagreed. Out of 19 people of service holder 7 people were agreed with it and rests of 12 were disagreed and lastly out of 5 students was agreed with this issue and 4 were disagreed.

Above the 10 analysis or from the 10 data we can make sure that ,lot of people are appreciated that syndication, liquidity problem, lack of international auditing and internal auditing, irresponsibility of SEC and lack of government necessary rules are the major reason for financial crisis. On the hand there are very few people who don't think so. Many people think that, lack of knowledge is also responsible for poor condition of capital market. Few people think that, government should give the change to black money holder to white their money by paying tax. If lot of investor are available in the capital market and SEC operation are positively run there are no financial crisis happened in the capital marke
